

Unrestricted sidewalk sweeper

Eliminate high maintenance costs on traditional carpark sweepers with the ASC 125. The ASC 125 is a sidewalk sweeper that has high ground clearance and can sweep over speed bumps without damage. It can also be configured as a ride on sweeper or a compact walk behind. The ASC 125 can be used unrestricted and driven without a licence. The ASC 125 comes in two versions: electric for a run time of five hours or a Honda Petrol version for non-stop continual use.

versions

Emission-free street sweeping

Nicknamed the marathon machine, the electrically operated zero-emission 500ze uses the latest generation of lithium ion storage batteries providing lasting performance for all city cleaning needs. With a maximum operating time of up to 11 hours and a top speed of 25kph, the fully electric battery sweeper moves quickly between areas while providing a smooth ride thanks to its four-wheel suspension system. Further available options include a CCTV reverse camera, on board pressure washer and air-conditioned cab.

Alcohol-based air fresheners

Florogen concentrated alcohol-based air fresheners may be used as a space deodorant or as a surface deodorant for extremely long lasting 24-hour deodorisation. Florogen may be used on toilet areas, under sinks, behind desks and furniture and into waste bins after cleaning. Available in the pleasant perfumes of original, strawberry, lavender and frangipani. Florogen has been proven to kill 99.9 per cent of bacteria. It is available in a 5 litre bottle and 500ml ready to use spray bottles.

Reliable battery-operated floor scrubber-dryer

Exclusively distributed by Cleanstar in Australia and New Zealand, the European made MIRA 40 is a cordless floor scrubber-dryer that operates on a single 36 volt lithium battery that has up to 1500 recharge cycles. The machine has a heavy duty stainless steel frame and a 410mm working width. The MIRA also has an eco-energy saving function and a single control panel so is easy to use for operators, who will experience up to four hours of run time when polishing on low speed.

No mess graffiti removal

The Tornado ACS 36 negative pressure graffiti removal system cleans without high pressure, water or chemicals. By applying different blasting material (granulate), surfaces can be gently cleaned, stripped or derusted. The closed circuit of the system allows a dust-free work in a vacuum and a permanent reuse of blasting material up to 100 times. Ideal for the cleaning floors, facades and removing graffiti. The extremely compact machine is easy to transport and therefore flexible in the field of applications.

Dual-purpose floor pad

Duala from Glomesh is a dual-purpose floor pad that cleans and shines in one step using only water. The Duala restores dull, marred floors to their original shine, seamlessly removing scuffs and surface marks from VCT, terrazzo, natural stone, concrete, vinyl and rubber. Two options are available: one for low-speed use or use with auto scrubbers, and one for use at high speeds that features a patented inner strata technology for increased strength.

Everyday use cleansing wipes

Dermalux cleansing wipes are a single use wipe designed for everyday use. They are suitable for use in aged care, in-home care, hospitals and palliative care facilities. Dermalux cleansing wipes are gentle on skin, and contain natural emollients leaving skin feeling fresh and invigorated. One wipe should be used for each patient area i.e. face, hands, back and perineal area. A key point of difference is that they are made from sustainable bamboo and are 100 per cent biodegradable.
