

Ultra-compact scrubber drier

Battery-operated and thus free from cords and tripping hazards associated with them, Kärcher's BD 30/4 C Bp Pack ultra-compact scrubber drier gives an impressive performance on small areas of up to 300sqm. Whether on natural or artificial stone, epoxy resin, linoleum or PVC, the scrubber drier is significantly faster and more thorough than cleaning by hand.

The machine also suctions in reverse if needed.

Biological odour-killing washroom cleaner

Banish persistent bathroom odours for good using Agar's biological washroom cleaner Bac2Work. Formulated for use in and around toilets, urinals, sinks, drains and tiled floors, the good bacteria in Bac2Work consumes odour causing organic matter, removing the source of bad smells. Bac2Work continues to clean surfaces long after it has been applied, and can be used in grout pores and other hard to reach places.

Lightweight and quiet backpack vacuum

The Ghibli T1 backpack vacuum cleaner comes with an improved harness and shoulder strap designed to withstand the heavy duty demands of commercial cleaning. It also has an IEC power socket, a 1450 watt motor and a H14 HEPA filtration. The ergonomic and lightweight design of the backpack allows for easy cleaning and its low noise level (60dbA) makes the vacuum suitable for use in a variety of environments. Available in a charcoal and light grey colour.

Ergonomic and versatile scrubbing machine

CaddyClean is an extremely versatile battery driven scrubbing machine designed for professional cleaners. It is simple to handle and its extremely low weight, twin brush and practical design makes it ideal for cleaning in areas where manual methods presently are used. CaddyClean has an ergonomically designed handle with features such as adjustable and variable pole length and angle. Its brushes are designed for hard to reach corners and niches and the heavy duty battery lasts up to three hours.
