

## Easily operated self-contained Hako X17 extractor

The 'self-contained' X17 Carpet Extractor is ideal for use in offices, schools, hospitality, healthcare centres, retail outlets, restaurants and government facilities.

Featuring a 43cm cleaning path, the X17 is equipped with two spray jets that force cleaning solution into the carpet. The brush agitates and deep cleans the carpet while a heavy duty vacuum picks up the dirty solution, all in one pass.

The operator-friendly control panel makes it easy to operate and the extractor has momentary and continuous spray features.

The tap-filling function offers efficient filling of the 34 litre solution tank and the removable 29 litre recovery tank has a convenient dump hose that saves time and empties easily.

The machine's easy glide vacuum shoe moves across carpet effortlessly while large 25cm wheels support easy transport and manoeuvring up and down stairs.

The X17 is constructed of non-corrosive polyethylene that won't dent, corrode or rust. It contains two quick disconnect spray jets

that allow for simple maintenance and the automatic float shut-off prevents damage to the vacuum motor.

The X17 also offers optional accessory tools for cleaning upholstery, stairways, underneath furniture and against walls.

## Highly biodegradable Formula 90 delivers powerful cleaning

A heavy-duty, highly concentrated, triple-strength carpet cleaning detergent for use with truckmounts or portable extractors, Cleancare's Formula 90 is said to deliver consistent, powerful cleaning on every job.

Safe for use on wool and stain resistant fibres when diluted at the highest level, Formula 90 contains highly specialised linear alcohol ethoxylate surfactants, 'the engine or work horse' of a detergent system.

These are not only litre for litre the most versatile surfactants in removing the types of soil found on the carpet but are also highly biodegradable.

## Biological carpet cleaning kit

With its Biological Carpet Cleaning Kit, Bio Natural Solutions (BN) says it's 'created another planet saving substitute to traditional and conventional carpet cleaning techniques'. The kit comprises Bio Blitz Biological Cleaner and Wee Off Stain and Odour Remover.

Cultured bacteria in Bio Blitz Biological Cleaner decompose organic matter such as urine, blood, soap scum, grease and fats. 'With its powerful concentrate it makes cleaning carpets quicker, easier and more effective,' notes BN.

Wee Off Stain and Odour Remover is also included so that nasty stains and pungent odours are removed in an effective and environmentally friendly way.

BN believes its GECA-certified and 100 percent chemical-free eco-friendly kit provides technicians with all they need to successfully clean carpets.
