

## Lightweight and efficient vacuum cleaner

The single motor Sebo G2 Professional is a lightweight vacuum cleaner that ensures deep cleaning of large and small areas. It is equipped with a warning system and automatic shut-off capability to alert users to machine problems such as clogs, a full bag and brush obstruction. The G2 Professional comes with a three-step filtration system, including Sebo's S-class filtration, and is ideal for hotels, hospitals and nursing homes where operator comfort and high performance filtration is paramount.

## Non-reflective, low-sheen floor sealer

Achieve a beautiful finish on floors while reducing light glare with Agar's low-sheen floor sealer matt finish sealer. Formulated to stand up to heavy traffic, this hard-wearing sealer dries to a clear, non-reflective and non-slip finish. The sealer is easy to use, easy to lay and requires minimal stirring to produce a streak-free coating. It is fully strippable and can be used on vinyl, timber, terrazzo and concrete floors.

## Upright vacuum delivers gentle carpet clean

The VU4 upright vacuum cleaner provides a thorough but gentle cleaning of carpets. It brushes and vacuums at the same time to remove dirt from fibres and ensure an optimum cleaning result, even in areas subject to heavy wear. The telescopic suction pipe and flexible suction hose can be used to vacuum curtains, upholstery and furnishings without any problems. VU4 vacuums are fitted with germ-reducing fibro filters or optional Hepa filters to enable use in hygienically sensitive areas.
